WHOLESALE FLORISTS AND NURSERYMEN

Rutherford, New Jersey

TELEPHONE CALL, 70 RUTHERFORD
NURSERIES, CARLTON HILL, NEW JERSEY

INTRODUCTION

WE take pleasure in presenting to you our Catalogue for the Fall of 1903, and thank our friends and patrons for their generous support and complimentary letters received during past season. Our range of greenhouses and storehouses now covers 100,000 square feet, and our nurseries 75 acres of land, which will materially assist us in giving the needs of our patrons better attention than ever. It is our constant aim to furnish the best of all kinds of horticultural stock our European connections enable us to supply, thus giving our patrons the benefit of our travels and life-long experience.

We solicit your patronage, knowing fully well we can supply the class of stock you need to make your business a success.

If there is anything you want, not enumerated in this Catalogue, kindly send us your order and same will be filled at the lowest market price.

We have extensive office facilities to meet the demands of our increasing business, enabling us to give your correspondence prompt and careful attention.

PRICES in this Catalogue are F. O. B., Rutherford, N. J.

IMPORTANT—This Catalogue cancels all previous prices, either in special lists, offers or catalogues. This rule will be strictly observed.

ORDERS from unknown correspondents must be accompanied by remittances or satisfactory references.

TERMS—Accounts rendered first of every month; a cash discount of 3 per cent. allowed on all orders accompanied by cash. *Six per cent. interest will be charged after 60 days*

REQUEST your orders to be shipped by express. It will save you trouble and unnecessary delay. We will not be responsible for goods shipped by freight.

All errors and omissions in the execution of orders will be satisfactorily adjusted if we are notified immediately upon the receipt of goods.

PACKING will be charged at cost on all Nursery Stock. This rule will be strictly observed.

We warrant our stock to be as represented in this Catalogue, but do not guarantee crops or assume any responsibility after the goods leave our hands.

VISITORS—Our nurseries are always open to visitors; inspection of our stock will convince you we are filling our orders with the finest class of stock grown. We will be pleased to have any one interested in gardening visit our nurseries, situated at East Rutherford, N. J., where we have on hand quantities of stock of our own growing, in addition to a line of the different stocks in season from the firms which we represent, this facilitating inspection and the prompt execution of orders.

Trusting to again hear from you and your friends, promising our best efforts to give satisfaction.

Yours respectfully,

BOBBINK & ATKINS,

RUTHERFORD, N. J.

INVITATION

We shall be pleased to have anybody interested in Horticulture visit our Establishment, which is situated at Carlton Hill, N. J. We have on hand at all times many interesting Plants, Shrubs, Trees and other stock. Our storehouses and greenhouses cover a superficial space of 100,000 square feet, and at this season the stock we have in them is worth traveling any distance to see. In addition to this, our large Nursery is always worth seeing.

Yours truly,

BOBBINK & ATKINS.

AZALEAS—WILL ARRIVE SHORTLY

We have inspected our stock grown by the syndicate of Belgium growers this Summer, and find it the finest we have ever had. The varieties are the most popular for American trade, and consist of the following: Van der Cruyssen, Vervæeana, Prof. Walters, Niobe, Bernard Andre (Alba), Empress of India, Schryveriana, Simon Mardner, Dr. Moore, Emperor of Brazil, Deutsche Perle and many other exquisite varieties little known to the trade. We would suggest your leaving the selection to us as much as possible, stating if you need early or late kind. This will enable us to give many choice kinds.

RHODODENDRONS

Our collections consist entirely of Hardy English, Parson's Hybrids, and Catawbiense Grandiflora varieties, and choice forcing kinds.

The Rhododendron as a forcing plant for Easter is becoming more popular every year. Such desirable varieties as Ponticum, Roseum Prince Camile de Rohan (Rosy Pink) and Cunningham White can easily be forced into flower in three to four weeks from the time they are brought into a warm house.

The $1.00, $1.50 and $2.00 sizes of the above varieties are extra fine, being large compact plants, well budded and clean foliage. We have many other desirable forcing varieties in addition to the above, but we recommend these as being especially fine for that purpose. Every Florist should have a few in bloom at Easter with other stock.

EVERBLOOMING OR MONTHLY ROSES

We have thousands of these roses growing in our nurseries. The following are good for pot culture and outdoor planting for cut flowers:

Maman Cochet (pink), Maman Cochet (white), Hermosa, Clothilde Soupert, Pink Soupert, Agrippina, Marie Van Houtte, Pres. Carnot, and many others.

We especially recommend the Maman Cochet Roses, both the pink and white. Our stock of these is exceptionally fine. Price of any of the above, strong field grown, per 100, $12.00; per 500, $55.00; per 1000, $100.00.

LORD PENZANCE'S HYBRID SWEET BRIARS

Anne of Gierstein. Dark crimson, good grower.

Brenda. Maiden's blush or peach, dainty in color and shade; the contrast and effect of the bright golden anthers add a peculiar charm to this variety.

Lady Penzance. Beautiful soft tint of copper with a peculiar metallic luster; the base of each petal is a bright yellow, which, showing through the clear golden anthers, forms a halo round them; very free flowering, with a delicious perfume from foliage and flower.

Lord Penzance. Soft shade of fawn or ecru, passing to a lovely lemon yellow in the center, sometimes toned with a most delicate pink; very sweet scented.

Meg Merrilies. Gorgeous crimson, very fine flowering; seeds abundantly; robust habit, large foliage.

Lucie Ashton. White, beautifully bordered with rose.

Amy Robsart. Fine large carmine flower.

Rosy Bradwardine. Distinct large flower, delicate pink.

Flora McIvor. Violet Rose flower, very fine.

Strong two-year-old plants of all the above varieties, $2.00 per doz.; $15.00 per 100.

ROSES—Continued.

NEW ROSE CLIMBING CLOTHILDE SOUPERT

This is a climbing form of that grand variety, Clothilde Soupert. The flowers and foliage are identical, differing in that the growth is a rampant Climber, as free in bloom as its parent. Each, 50c.; doz., $5.00.

NEW ROSE SOLEIL D'OR (Golden Sun)

One of the newer varieties from France. Fine large globular flowers, and rich colored, medium-sized leaves. The color of the flower, deep yellow, shaded with orange and nasturtium red. Each, 20c.; doz., $2.00.

NEW WICHURAIANA ROSE

(THE B. & A. DOUBLE PINK MEMORIAL ROSE)

There is nothing in roses introduced in recent years that has proved such an innovation or so valuable as the Japanese trailing Rosa Wichuraiana or the Memorial rose. This variety is a seedling from Wichuraiana, carrying with it all its beautiful characteristics in every respect, with the exception of the flowers, which are very double, 2 to 2½ inches in diameter, and are of the brightest and most cheerful rosy pink. Its fragrance is delightful, being distinct from that of any other rose. Strong field-grown plants. Each, 35c.; doz., $3.00; 100, $20.00. 2-inch pots, doz., $1.50; 100, $12.00.

ROSES—Continued.

ROSA HERMOSA

We have this in large quantity and fine condition this year. Best pink bedder, the freest and most perpetual bloomer in existence. Only hard freezing in late Autumn draws its flowering season to a close. Still grown by thousands as a market pot plant. Strong. $10.00 per 100.

ROSA MULTIFLORA JAPONICA

This beautiful Japanese rose has now become so popular on account of its usefulness that every landscape gardener and florist are using it for outdoor planting.

One-year-old plants, per 100, $4.00; per 1000, $35.00. Special prices on large quantities.

HARDY HERBACEOUS PLANTS

Since old-fashioned flowers have again become so popular throughout the entire floral world we believe it fitting, at this time, to draw the attention of our patrons to the many kinds and varieties useful for cut flower purposes. This we have done by placing an asterisk (*) before each kind and variety adapted for this use.

We have several acres of ground planted with an immense collection of those old-time favorites, consisting of thousands of kinds and varieties, giving a profusion of bloom from early Spring until late Fall. With little knowledge of these plants anybody can select a collection from our list to suit any condition of soil—wet, dry; sunny or shady, and colors suitable for any purpose.

We will be pleased to give special prices on quantities. See our special Hardy Plant Catalogue for large collections and descriptions.

*ASTILBE LEMOINEI, GERBE D'ARGENT

One of the most striking and useful of this class of plants, having long stringy spikes of graceful silvery white flowers. This is a great improvement over all existing varieties. Each, 25c.; per doz., $2.50.

*CAMPANULA PERSICIFOLIA MOERHEIMI

This splendid new Campanula was raised some years ago and was offered last season for the first time; it is one of the best hardy perennials introduced of late years.

This is evidently a thoroughly good plant, a semi-double form of the peach-leaved Bellflower, and as white as driven snow. The flowers are large and produced freely on the spike. Useful for cuttings.

The plant grows more compact than the other persicifolia varieties and the stems are quite covered with very large flowers of the purest white, which have a diameter of 2½ to 3½ inches and are double and semi-double. The flowers are not bell-shaped like other Campanulas, but resemble a double white Camellia. 25c. each; $2.50 per doz.

CHAMAEPEUCE ARGENTEA GRANDIFLORA

This is the most striking and ornamental "Thistle" ever introduced, growing 6 feet high, and making a beautiful tropical effect. Each, 35c.; per doz., $3.00.

Campanula Persicifolia Moerheimi.

*GERBERA JAMESONI

(THE BARBERTON DAISY)

This beautiful South African plant has attracted the attention of lovers of plants all over the floricultural world. It is deserving of this attention on account of its distinct, exquisite, brilliant scarlet flowers. Its grace and beauty will continue to win the admiration of all true lovers of plants who are so fortunate as to see it in bloom. It is an evergreen herbaceous plant, with peculiar cut leaves.

Gerbera Jamesoni—The Barberton Daisy.

The flowers are erect on a long, strong stem, and are frequently 4 inches across. The plant can be lifted from the open ground in the fall, placed in pots, and will continue to bloom the entire winter. Each, 20c.; per doz., $2.00; per 100, $15.00.

*HARDY HERBACEOUS CHRYSANTHEMUM MAXIMA

Is of recent introduction, producing large white flowers on long stems; one of the best for cut flowers. Highly recommended to florists who have cut flower trade. Price, 2½-inch, per 100, $12.00.

Now is the time to write us for catalogue of import stock for Spring, such as Palms, Bay Trees, Araucarias, Ficus Elastica, etc.

*INCARVILLEA DELAVAYI

One of the best hardy plants introduced from China, bearing racemes of delicate rose-pink and red-brown gloxinia-like flowers.

Incarvillea Delevayi.

This beautiful hardy plant has been one of the attractions of our nurseries this season, being continually a profusion of bloom. It is, in addition to being a hardy outdoor plant, a splendid pot plant, and should sell well. Strong clumps. Per doz., $2.00; per 100, $15.00.

*IRIS KAEMPFERI

We have secured in Japan an entirely new and unique collection of Iris Kæmpferi. It comprises 50 of the newest novelties originated by the Japanese. Price of collection, $10.00. We will be pleased to call upon prospective buyers of these collections of Japanese plants, and will show exact reproductions in paintings by Japanese artists. Fine varieties, named, field-grown clumps, per doz., $1.50; per 100, $12.00.

*PAEONIAS

TREE PEONIES

We have received from Japan a very handsome collection of these, consisting of 50 varieties. Strong, each, $1.00; per doz., $10.00. Fine, large specimens, each, $3.00 to $5.00.

HARDY HERBACEOUS PLANTS—Continued.

*PAEONIA OFFICINALIS ATRORUBRA FL. P.

This is the darkest variety ever introduced of this early flowering type. It is a rich dark crimson. Strong flowering roots, each, 25c.; per doz., $2.50.

*SHASTA DAISY

Is only the first of the new type, some of which were for the first time exhibited in the window of a prominent florist. Crowds of people visited the establishment to inquire about the latest floral wonder. The blooms when cut remain perfectly fresh and in good condition for two weeks or more. Think, if you can, what other flower possesses all the above qualities. $1.25 per doz.; $10.00 per 100.

*SPIRAEA PLUMOSA ALBA

(NOVELTY)

Is the best thing in Herbaceous Spiræas ever put on the market. Per doz., $2.00; per 100, $15.00.

RHODODENDRONS

Our collections consist entirely of Hardy English, Parson's Hybrids, and Catawbiense Grandiflora varieties, and choice forcing kinds.

The Rhododendron as a forcing plant for Easter is becoming more popular every year. Such desirable varieties as Ponticum, Roseum Prince Camile de Rohan (Rosy Pink) and Cunningham White can easily be forced into flower in three to four weeks from the time they are brought into a warm house.

The $1.00, $1.50 and $2.00 sizes of the above varieties are extra fine, being large compact plants, well budded and clean foliage. We have many other desirable forcing varieties in addition to the above, but we recommend these as being especially fine for that purpose. Every florist should have a few in bloom at Easter with other stock.

CONIFERS AND EVERGREENS

We call special attention to our collection of Evergreens. We have hundreds of varieties not enumerated in this list. All our conifers are several times transplanted and set out with a good ball of earth. They are sure to grow. Our prices are very low considering the quality of stock. Cheap evergreens are dear in the end, and we are convinced that our stock will give satisfaction. See General Catalogue for complete list of varieties.

TRAINED FRUIT TREES

We have a large quantity and variety of these trees. It is needless to inform our patrons that trained trees are fast coming into favor in this country, and it will, in our opinion, only be a few years when all kinds of trained trees will be planted in every garden, either large or small.

We have published an illustrated pamphlet of trained trees and same will be mailed on application.

"RUTHERFORD PARK" LAWN GRASS SEED

To obtain a beautiful lawn, one which is pleasing to the eye and a joy to the owner, you must be very particular in the selection of your grass seed. We recommend to you our **"RUTHERFORD PARK" MIXTURE**, which we have found very satisfactory in our landscape gardening work, and which has given great satisfaction wherever used. We are the originators of this brand, wishing to have our own seed, on which we knew we could depend.

A great deal of your success with a beautiful lawn depends on the proper preparation of the soil. This should be done by draining, if necessary, and digging or plowing to the depth of 6 to 12 inches, according to the nature of the soil, applying at the same time a liberal quantity of well decomposed manure. Before sowing, the ground should be perfectly cleaned, made level, and evenly raked. The seed should be sown on a calm day, at the rate of 4 to 5 bushels to the acre. The ground should then be rolled, and, as soon as the grass has attained the height of 2 to 3 inches, rolled again. Frequent mowing and rolling are indispenable to maintain the turf in good order.

Our **"RUTHERFORD PARK" MIXTURE** will make a close, thick turf in a very few weeks. It roots deeply, enabling it to withstand severe droughts; consequently maintaining its beautiful rich green color the entire season. The **"RUTHERFORD PARK"** is no doubt the Cheapest Lawn Grass Seed offered; not particularly on account of the price, but more from a point of quality and quantity of seed to the bushel, which contains 21 pounds of the finest kinds and varieties of grasses used for lawn purposes. We believe this mixture to be among the best now on the market, and would ask our customers to carefully consider this before placing their orders.

We will supply any quantity our customers may desire to meet the needs of the grouud on which it is to be sown.

THE QUANTITY REQUIRED for making new lawns is 4 to 5 bushels to the acre; for renovating old lawns, 1 to 2 bushels. For a new plot, 15x25 ft., or 375 sq. ft., two quarts is required, and one quart for renovating old lawn of same dimensions. **Bushel, $4.50.**
